

# LEGOLA

## MODULAR RECONFIGURABLE LOUNGE

Collaborative and common space environments are the fastest growing trend in the workplace. They are essential for the challenges of today's workforce dealing with high stress, combining multiple generations, and catering to unique work-styles. These open space areas create daunting challenges in acoustics, privacy, and flexibility that are now solved by **via seating's** LEGOLA.

LEGOLA is a dynamic, modular, lounge system consisting of specialized acoustic sound suppression panels, comfortable lounge seats, work-tops, tables and accessories. It is a complex, yet simple to assemble system, that can be combined, moved around, and easily reconfigured on the fly.

We currently offer 21 typical LEGOLA configurations in addition to offering you with the ability to create endless, custom pieces to fit your space.

### True 48-Hour Commitment

## BUILD YOUR OWN LEGOLA CONFIGURATION

LEGOLA is a completely customizable, reconfigurable panel and seating solution. Please contact our customer service team (1-800-433-6614) for help in developing your own LEGOLA piece.

### Important steps & notes for describing your custom LEGOLA configuration:

- 1) Always start from the leftmost panel or seat to the rightmost moving clockwise imagining you are looking down at the configuration from an aerial view. Start from the outside of the configuration to the inside.
- 2) For panel and seat solutions, whenever possible, lead with the leftmost panel.
- 3) Panels:
  - Small panels (40") are always connected to another panel with 2 brackets. The unconnected side uses 2, clear plastic plugs (MC).
  - Large panels (59") are always connected to another panel with 3 brackets. The unconnected side uses 3, clear plastic plugs (MC).
- 4) Unless otherwise stated, shelves, work surfaces, seats and accessories are connected to LEGOLA panels using a button. Please note, work surfaces and shelves also utilize brackets (image not shown).
